

Fadwa Abdulrahman Alsaif

Software Engineer

Hail, Saudi Arabia | +966 59 054 5617 | fadwax0212@gmail.com

PROFILE

Recent Software Engineering graduate from University of Hail (2026) with hands-on full-stack development experience gained through freelance projects and academic work. Skilled in HTML, CSS, JavaScript, and Node.js, with a strong interest in web development and UI/UX design. Delivered complete projects independently from front-end to back-end, and eager to bring this practical foundation to a professional software engineering or IT role.

EDUCATION

Bachelor's Degree in Software Engineering | *University of Hail* Graduated 2026

EXPERIENCE

Freelance Full-Stack Developer | *Self-Employed* 2025 – Present

- Designed and developed a data management website for an HR client to store and organize employee records, handling both front-end and back-end development.
- Built and delivered a complete restaurant digital menu website end-to-end (front-end to back-end) within a 3-week timeline.
- Currently working on independent freelance web development projects, managing client requirements from planning through delivery.

ACADEMIC PROJECTS

HR Data Management Platform | *Graduation Project — University of Hail* 2026

- Built a full-stack web application to help HR departments store, organize, and retrieve employee data efficiently.

Zakat Calculator Website | *University Project*

- Developed a web-based tool to calculate Zakat automatically based on user-entered financial data.
